Bostwick Folding Gates

FOLDING TOP TRACK & BOTTOM TRACK

SINGLE GATE 16' MAXIMUM WIDTH

DOUBLE GATE MAXIMUM WIDTH

FEATURES

Bostwick Folding Gates for school applications control corridor traffic. When partially closed, gates limit main traffic flow during after-school sporting events and other activities. When fully expanded, gates create a sturdy blockade from unwanted access.

Also for use in entryways, these gates offer another layer of break-in defense to locked school doors. All fixed security folding gates can be locked into place in both the stacked and extended positions for greater security control.

SPECIFICATIONS

- **Channels:** 0.75" spaced vertically not over 6" O.C.
- **Lattice Bars:** 0.625" x 0.1875"
