SCHOOL SECURITY SOLUTIONS
Wire Mesh Products | Folding + Portable Gates | Storage

Securing Schools + Campuses Since 1913

Install Acorn Wire + Iron Works security folding gates and wire mesh partitions to protect students and staff. Offered in both stationary and portable models, security folding gates are an economical way to secure various areas and prevent unwanted access both during and after school hours. While our security folding gates pose as formidable barriers, the classic lines and design blend into any interior space, providing the highest level of security and aesthetics.

SECURITY FOLDING GATES + WIRE MESH PARTITIONS ARE PERFECT FOR:

- Closing off school corridors
- Preventing access to specific areas at entryways - either behind or in front of doors
- Traffic control - requiring people to follow a certain path
- Equipment and confidential file storage areas
- Added security at windows to prevent entry

Stationary Gates

Acorn Fixed Security Gates control corridor traffic during routine school activities and create a sturdy blockade from unwanted access. Gates have multiple storage options or may be installed directly into the wall to disappear when not in use.

FEATURES + BENEFITS

- Limit access to stairways, hallways and entryways
- Available in single and double-gate configurations
- Folding top and bottom tracks allow for easy expansion
- Semi-permanent gates can be easily relocated and retrofitted construction

Portable Gates

Flexible and compact, Acorn Portable Folding Gates ensure security and aid in traffic flow. They are the ideal solution for temporary access control in entrances or pass ways.

FEATURES + BENEFITS

- Easily relocated for use in multiple environments
- Available in a range of widths at standard heights of 6' or 6'6"
- Gates can be stacked, locked and rolled away for easy storage
- Tight lattice bar spacing and spear-tops prevent individuals from climbing over the gates

Storage Units

The perfect solution for storing equipment and valuables in any space. Acorn Storage Units are custom designed with expanded metal mesh that allows light, ventilation, and fire suppression systems to work effectively.

FEATURES + BENEFITS

- Fast setup and easy reconfiguration for maximum flexibility and efficiency
- Install individually or configure in multiples to compartmentalize larger spaces
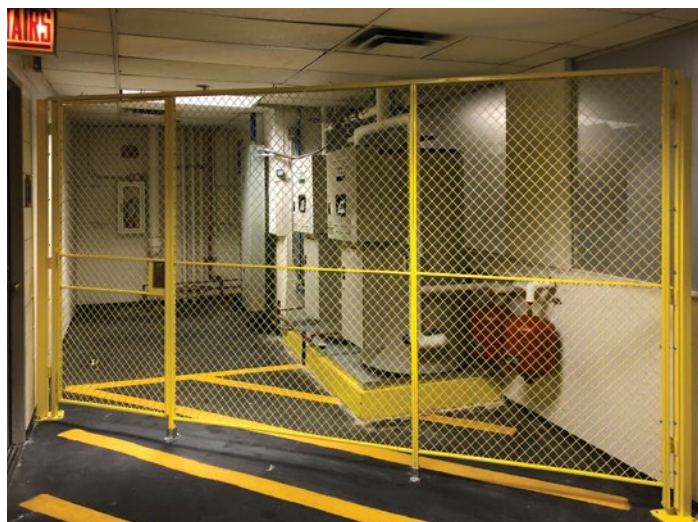

Wire Mesh Partition + Cages

Acorn meets security requirements for athletic gear, electronics, laboratory, utility rooms, and other facility equipment. Tough, steel mesh panels can be configured in a variety of ways to meet changing security needs in existing school structures.

FEATURES + BENEFITS

- Secure equipment, expensive, confidential or hazardous items against theft or vandalism
- Allows in light for good visibility and airflow for proper ventilation
- Standard or custom panels and doors adapt to any space
