

BI-PARTING TUNNEL GATE

Description

When a wide opening and full height clearance are required for forklift access, nothing works better than a Cogan bi-parting tunnel gate. All bi-parting tunnel gates are equipped with a padlock hasp and heavy-duty 5" soft rolling casters. The top track guide allows for easy slide maneuverability, while the strong bolted steel handles offer a sturdy grip. Doors are made of 2" x 2" x 10 GA welded wire mesh framed in 1 1/4" x 1 1/4" x 12GA structural angle with one or two welded 1/2"Ø reinforcement.

EXAMPLE:

Typical 10'W x 9'H bi-parting tunnel gate shown here.

Reinforcement tube is included on all bi-parting tunnel gates for extra support and rigidity.

Panel configuration and quantity will vary based on gate dimensions.

Assembly instructions are specific to the size and material of your gate. See installation Manual for complete details.
