FG FOLDING GUARD®

PROTECTING AMERICAN BUSINESS SINCE 1962

Folding Guard® was founded in Chicago and has been a fixture of the industrial community for more than 60 years. We proudly serve American businesses through high quality steel solutions in Safety, Security, and Storage.

After sixty years in the business, we know a thing or two about steel. Folding Guard® was founded in 1962, at the peak of Chicago's steel industry. Pioneering sturdy folding gates, then protective wire products, Folding Guard® has grown through the decades and is now a formidible market leader.

Our products have served customers in hundreds of industries in thousands of configurations.

The modular systems that Folding Guard® products are based on allow us to specialize our designs to fit your needs.

Pair machine guarding with our complete range of doors and locks for a durable and cost-efficient system for your space.

Businesses rely on Folding Guard® to support everyday operations that require protecting their most valuable assets: People, high-investment machinery, and processes.

Decade-long customers from automotive, warehousing, data centers, construction, and logistics industries look to Folding Guard to tackle the most challenging guarding problems through decades of experience configuring steel wire products.

MODULAR ADAPTABILITY

Versatile solutions for every need, you'll find the modular and adaptable nature of Folding Guard® products brings endless possibilities that fit your business needs.

NATIONWIDE SERVICE NETWORK

A strong nationwide dealer network means knowledgeable service experts in your area. All dealers in our network have extensive knowledge of our products and are able to coordinate your entire project from design to installation.

FREE DESIGN SERVICE

Our products are designed for easy planning and installation. Our design team is ready to bring fast and accurate services to the table to bring your project to life.

MACHINE GUARDING
SAFETY

VERSA GUARD™
MACHINE GUARDING

STURDY SYSTEM
Frameless, with 90 degree bends at the top and bottom of all panels, the rigidity of this system is unparalleled in its class.

UNSURPASSED ADJUSTABILITY
Panels can easily be adapted before delivery or on-site, and it is easy to make cut-outs without any need for welding.

QUICK & EASY ASSEMBLY
All mounting hardware and floor anchors are included and posts are predrilled for expedited assembly.

EASILY COMBINED WITH OUR SAF-T-FENCE® SYSTEM
Can be used where risk of impact is low and seamlessly blended to our Saf-T-Fence® system in higher-risk sections.

PROTECT YOUR BUSINESS

1,469 OSHA citations for Machine Guarding violations were given in 2022. The top fine imposed in 2022 totaled $1,201,031, and penalty limits are only increasing.

OSHA publishes the list to alert employers about these commonly cited standards so they can take steps to find and fix recognized hazards as cited at osha.gov/top10citedstandards

Quick Installation.

Versa Guard's frameless system allows on-site customization. With simple mounting clips, this frameless system is easily reconfigurable, flexible and installs 25 % faster than substitutes by employing fewer parts and utilizing self-tapping screws.

The tight 1.25" × 2.5" grid pattern allows Versa Guard to be installed 8" from the hazard instead of 33.5" required of 2" x 2" grids. The 25.5" difference in distance maximizes productive space without compromising strength and protection.

Capping Channel.

SAF-T-FENCE®
MACHINE GUARDING

IN STOCK
Standard parts are stocked in-house for fast shipping when you need it.

MODULAR SYSTEM
The Saf-T-Fence® system consists of standard panels available in a variety of widths and heights.
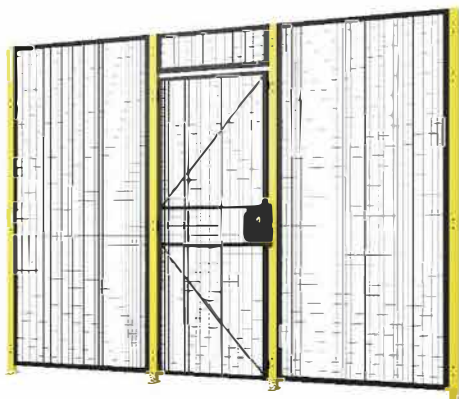

STRUCTURAL INTEGRITY
Framed welded mesh bolted into 16 guage posts gives Saf-T-Fence® superior strength and stability.

MEETS INTERNATIONAL SAFETY STANDARDS
This product meets and exceeds applicable ISO, OSHA, ANSI/RIA & CSA safety standards.

PROTECT YOUR PEOPLE

Machine Guarding continues to be one of the Top 10 most frequented cited standards by OSHA and proper Machine Guarding product and intallation is OSHA's #1 recommended solution for machinery hazards.

OSHA publishes the list to alert employers about these commonly cited standards so they can take steps to find and fix recognized hazards as cited at osha.gov/top10citedstandards

Angled panel kits makes joining panels at any angle fast and easy.

Protect your people from accidents and your business from costly fines. Saf-T-Fence® Machine Guarding from Folding Guard protects your staff, and lowers your cost of doing business by maintaining productivity and reducing downtime.

Our modular system consists of three system heights, multiple styles of doors and over 30 pre-fabricated wire mesh panel sizes. All pieces assemble and install precisely and easily. You'll enjoy worker safety, less downtime, and compliance with federal safety regulations when you use Saf-T-Fence® to fulfill your machine guarding needs.

4" x 6" footplates makes the system strong and stable.

LOWER COSTS ON MAINTENANCE

A must-have system for maintenance areas without need for a door. Reduce down time, save on labor costs, and maximize productivity. Intuitively designed brackets allow quick access to hazard areas.

Two bracket corner system.

Drop-N-Lock® is the easy-to-use solution to quick access maintenance needs. This system allows for quick removal and reinstallation of panels with a straightforward lock set up. Drop the panels into the post brackets and lock it into place with simple tightening.

When maintenance workers need access, quickly remove the panel from the posts and the bracket system will stay attached to prevent any misplaced hardware.

Panels click into place on the bracket.

PROTECT ASSETS & INVENTORY

Warehouse and cargo theft cost businesses $44 million Q2 of 2023. Control access to valuable inventory with the secure, modular, strong, and adaptable Saf-T-Fence® partitioning system.

Saf-T-Fence® Partitions are a low-cost alternative to permanent walls. Modular in nature, this partitioning system provides security, structural strength and flexibility, all while allowing an unobstructed view of your property. The mesh pattern also allows for full air and light circulation with no change to your lighting or heating systems required.

This system can be built into multiople heights by pairing panels in combination with multiple styles of doors. All pieces in the Saf-T-Fence® Partitioning system assemble and install with precision and ease.

The angle panel kit can join two panels at any angle.

The sturdy 4" x 6" footplates makes the system extremely stable.

QWIK-FENCE®
PALLET RACK BACKING

LIGHTWEIGHT

The frameless design makes Qwik-Fence® Pallet Rack Backing lightweight and easy to install.

WELDED MESH

Welded mesh provides a safer working environment than netting.

STACKABLE

Customize to your needs. Stack panel on panel to safeguard your highest rack.

IN STOCK

A large stock of the most common bay widths are ready to ship when you need it.

MITIGATE FALLING OBJECTS INCIDENTS

According to the Bureau of Labor Statistics, more than 42,400 "struck by falling object" OSHA recordable incidents in 2022. That's over 116 injuries per day, or one injury caused by a falling object every 10 minutes.

OSHA publishes the list to alert employers about these commonly cited standards so they can take steps to find and fix recognized hazards as cited at osha.gov/top10citedstandards

Adjustable extension kits allows extentions of panels past uprights.

Offset brackets available in different distances.

The Qwik-Fence® Pallet Rack Backing System is the perfect solution for securing pallet racks and bulk racks. This all-steel system provides fall-down protection for your company's most important asset—people. The open mesh design allows for quick visual inspection and allows waterflow from sprinkler systems.

Multiple assembly options allows the Qwik-Fence® system to be mounted flush, or if preferred, mounted with a selection of stand-off brackets. Visually, the galvanized finish will keep your system looking new for years to come.
