

Product Overview

Lift Tables

Hydraulic Lifts

Presto ECOA Lifts offers a full line of Hydraulic Scissor Lift Tables with capacities up to 12,000 lbs., available in: Light Duty; Standard Duty; Heavy Duty; and Compact, Double High configurations. They position material at just the right level to eliminate bending, stretching, and reaching.

XL Series Standard Duty Scissor Lifts

CLT Series Double Scissor Lifts

XS Series Light Duty Scissor Lifts

HH Series Heavy-Duty Lifts

DXS Series Double Scissor Lifts

Pneumatic Scissor Lift & Tilt

Pneumatic Scissor Lift

Pneumatic Scissor Lift & Rotate

Pneumatic Lifts

Pneumatic Lift Tables require no electricity and can be used anywhere that shop air is available. They require less maintenance than conventional lifts, and because there is no hydraulic fluid, there is no potential for process contamination. Capacities range from 1,000 lbs. up to 8,000 lbs. Available options include tilt tops and turntables.

Portable Lifts

Portable Lift Tables are available in both powered and manual lift configurations. Capacities range from 300 to 1,500 lbs. with vertical travel up to 36". They are ideal for repositioning loads within a work cell or transporting them from one area to another.

XBP Series Portable Electric Scissor Lift

DBP Series Portable Double Scissor Lift

XP Series Portable Manual Scissor Lift

Extended Vertical Travel Scissor Lift Tables

These high-travel double, triple, and quad scissor lift tables are designed and constructed for heavy-duty applications that require extended vertical travel. Multiple scissor mechanisms allow for maximum lifting heights in a small footprint. Capacities from 2,000 to 6,000 lbs. are available with lift heights from 70" up to 356".

DSL Series Double Scissor Lift Tables

TSL Series Triple Scissor Lift Tables

QSL Series Quad Scissor Lift Tables

Super Heavy-Duty High-Capacity Hydraulic Lift Tables

These high-capacity, super heavy-duty lifts provide the ultimate in lifting capability. Depending on application requirements, they can be configured with one, two, or four sets of scissor mechanisms to provide capacities from 15,000 lbs. to 120,000 lbs. and platform sizes from 48" x 60" to 120" x 264". Rectangular structural tube scissor legs and torque tubes provide maximum stability and minimal deflection.

MLTQD Quad Series Double-Wide/Double-Long

Tilters and Floor Height Lifts

Container Tilters

Position containers and wire baskets at a comfortable height for accessing contents. Available in 2,000 and 4,000 lb. capacities with 89° of tilt.

Stationary units can be fed with hand pallet trucks.

DC powered portable units are ideal for sharing between work cells or retrieving staged containers.

Floor Level units work with any style of container and can also be fed by a hand pallet truck.

Pneumatic Lift & Tilt Table

Hydraulic Lift & Tilt Table

Tilters and Lift & Tilt Tables

For individual control of lift height and tilt angle, Lift & Tilt Tables allow you to position work at the most comfortable height and angle.

Fixed Height Tilters are also available and can be mounted on legs, work benches, or directly to the floor.

CLTLT Series SpaceSaver Lift & Tilt Tables

Wide Base Fixed Height Tilter

Floor Height Lifts & Tilts

Floor level equipment can be fed with ordinary hand pallet trucks eliminating the need for fork lift trucks and trained operators. Lift only and Lift & Tilt models are available.

Upenders & Dock Lifts

Upenders

Heavy-duty upenders with capacities of 2,000 to 10,000 lbs., and tilt angles up to 90° with platform sizes up to 72" x 72". The primary application for these devices is to reorient loads (rolls and coils) from horizontal to vertical positions.

HUE Series Hydraulic Upenders can be mounted on scissor lifts or used as free-standing upenders.

UT90 Series Upenders are available with platens or forks as well as optional v-cradle platforms.

Trans-A-Dock TAD Series Surface Mount Loading Dock Lifts

SizzrDok HLD Series Dock Lifts

Loading Dock Lifts

SizzrDok HLD Series Lifts are designed for permanent pit or pad mounting. Load capacities range from 5,000 - 12,000 lbs. with platform sizes up to 96" x 144"

Trans-A-Dock TAD Series Surface Mount Lifts are suitable for use where permanent installation is not possible or practical. Capacities range from 3,000 - 5,000 lbs. with platforms from 48" x 96" up to 96" x 144"

Either loading dock series offers a variety of load transfer arrangements.

Custom Engineered Solutions

We have the people and the tools to create custom products to meet your unique needs. Our in-house professionals have vast experience in the design and manufacture of scissor lifts, loading docks, turntables, tilt tables and upenders. Employing state-of-the-art software with CAD/CAM systems, our inventive engineering department can meet virtually any lifting need, anywhere in the world.

Pallet Handling

Pallet Positioners

Pallet Positioners simplify the task of manually loading and unloading pallets by positioning loads at a comfortable working height.

P3™ All-Around units feature automatic leveling and a built-in turntable for nearside loading. Choose from airbag or spring styles.

The P4™ can be fed with an ordinary hand pallet truck. Operator controlled lifting and lowering allows users to precisely position the loads at any height.

Skid Lifters offer the added flexibility of transporting loads.

Hand Pallet Trucks

For durable, economical hand pallet trucks, nobody beats Presto ECOA. Standard-Duty trucks feature 5,500 lb. capacity with a powder coated paint finish, reinforced forks, and comfortable ergonomic handle.

Stainless Steel and Corrosion Resistant Zinc finishes are also available.

Turntables

Turntables can be used in palletizing, assembly, or work positioning applications.

The Low Profile Turntable sits only 1/8" off the floor and can be loaded with a hand pallet truck. The Floor Mount Turntable Ring is portable and can be moved easily from one work area to another.

Standard turntables can be mounted to the floor, to a fixed height stand, or to a lift table.

Stackers

Fully Powered Stackers

PowerStak™ Stackers feature the ultimate in “walkie” design. Ergonomic controls provide lift and drive at the touch of a button. Narrow masts and offset handles provide unmatched operator visibility. Choose from fork over for open bottom pallets and skids, or adjustable straddle for any pallet or skid including closed bottom. Available with 62", 101" and 125" lifting heights, with capacities of 2,200 or 3,000 lbs. at 24" load center.

Counterweight models have 1,100 lb. capacity at a 15" load center.

PowerStak™ Straddle

PowerStak™ Fork Over

PowerStak™ Heavy-Duty

PowerStak™ Counterweight

Powered Lift Stackers

For light to medium-duty usage, Powered Lift Stackers offer an economical alternative to forklift trucks. Units can be equipped with forks or platforms and are available in straddle or counterweight designs. The WP Work Positioner is ideal for lifting, transporting and assembly applications. Pallet Stackers can service racks up to 12' high with loads up to 3,000 lbs.

Post Lifts & Portable Mast Lifts

Post Lift Tables

Post lift tables are available in a variety of configurations including two-post, four-post, and cantilever. Choose 1,000, 2,000, or 3,000 lb. capacity units with platform sizes from 20" x 30" up to 30" x 60". Lifting and lowering options include mechanical hand crank, foot pump actuated and electrohydraulic.
