MOBILE SHELVING AND MINI-RACKING

Mobile storage allows you to complete your tasks quickly and effectively while keeping equipment close at hand.

Our heavy-duty base has been specially designed so you can easily and safely move a load of up to 1,000lb. per unit!

By adding a mobile base to your shelving or Mini-Racking, you can:

- Clear the floor area to facilitate cleaning under shelving
- Quickly reconfigure your department
- Move parts closer to workstations

You can also add accessories, such as handles to help with moving units, or protective plastic bumpers to prevent damage from impacts.
