TA-50-MED-P

TA-50-MED-L

PUNCHED VENTILATION

Allows air flow while maintaining structural integrity under load pressure, unlike expanded metal

KITS AVAILABLE

Kits are available to retrofit units in the field for flexibility and ease

LONG-LASTING DURABILITY

18-gauge and 14-gauge steel is reinforced and MIG welded by hand to provide robust protection year after year

3-POINT LOCKING

Optimizes security with durable theft protection and prevents weak points or forced entry

CAST HANDLE

Sturdy, heavy design for extensive use, can be secured with a standard padlock

LOCKING SHELF

Shelves can be adjusted and locked into place for convenience and security

PROPRIETARY HINGES

Specialized design for lasting durability and smooth, continuous closure

FLUSH & REINFORCED BASE

Flushed design for easy storage with a reinforced base to keep bottom shelf from warping
