

Custom Platform Design and Fabrication

We know one-size-fits-all doesn't always apply. Given the unique applications and requirements within a particular industry, a custom ladder is often the preferred option. You need safe access.

Wildeck's Access Products divisions (formerly known as Ladder Industries) has logged over 60 years designing and manufacturing standard and custom ladders, platforms and stair products.

Some of our custom ladder fabrication capabilities include, but are not limited to:

- Custom Ladder Stand
- Custom Ladder Stairs
- Custom Access Ladder
- Custom Marine Ladder
- Custom Ships Ladder
- Custom Rolling Ladder

Custom Platform Designs for Any Task

We have the experience and technical skill to modify or redesign products to better fit your application. From specs to paint colors, we can customize it all. Our designers have the ingenuity to customize our access equipment while ensuring that your unique needs are met in the safest, most efficient manner. Plus, you

can feel confident knowing that our experts are well-versed in governing codes and regulations, including OSHA and CAL OSHA. Together, we can create a configuration that elevates the safety of your access and the efficiency of the job!
