

Wildeck Standard Conveyor Crossovers

Wildeck's Standard Conveyor Crossovers are an economical way to provide personnel with safe and convenient access over both interior and exterior obstacles. The product's 45° angle of climb with 9" rises and runs makes for an easy climb. Additionally, the crossover's 1½" diameter tubular steel frame provides an unparalleled level of sturdiness and durability. OSHA and Cal-OSHA compliant, Wildeck's standard conveyor crossover products are designed to help employees maneuver their work site safely.

Standard Conveyor Crossover Specifications

- 45° angle of climb with 9" rise, 9" run for an easy climb
- Two-piece construction for easy installation
- 1½" diameter tubular steel frame
- 24" wide deck and treads
- 4" toe board on decks
- 28" overall width
- 9/16" hole anchoring
- Diamond plate or safety grating for slip resistance
- Stair supports on larger units
- Handrail included
- Yellow enamel painted finish
- Meets OSHA and Cal-OSHA requirements

Standard Conveyor Crossover Options

- Bridge inserts for additional horizontal clearance
- Custom horizontal and vertical clear dimensions available
- Safety grating steps and decks
- Closed risers
- [Special paint colors](#)
- Hot dip galvanized finish
