

## Wildeck Vertical Climb Conveyor Crossovers

When space is limited, Wildeck's Vertical Climb Conveyor Crossover provides a way for personnel to safely pass over ground-level obstructions. Designed to occupy a minimal amount of floor space, Wildeck's Vertical Climb Conveyor Crossovers are constructed with steel, resulting in a sturdy and durable piece of equipment for your critical access needs. Shipped in two pieces for easy field installation, Wildeck's Vertical Climb Conveyor Crossover can be customized to accommodate your vertical clearance requirements.

### Vertical Climb Conveyor Crossover Specifications

- Two-piece construction for easy installation
- 2½" x 2½" x 3/16" steel angle frame
- 1½" diameter tubular steel guardrails
- Rungs on 12" centers with dock tread steps
- 4" toe board on decks
- 30" overall width
- 9/16" hole anchoring
- Diamond plate or safety grating for slip resistance
- Yellow enamel painted finish

\*\*\* See *Vertical Climb Charts*

### Vertical Climb Conveyor Crossover Options

- Bridge inserts for additional horizontal clearance
- Custom widths and vertical clearances
- Safety grate decks and traction tread rung caps
- Center towers for multiple spans
- Can be customized to meet vertical and horizontal specifications
- [Special paint colors](#)
- Hot dip galvanized finish
