 www.wwcannon.com

This Model 60BMS-5-96 will lift sheets up to 96" wide and uses full-time battery power to operate.

Optional power source for all motorized sheet lifters. Just attached to your crane, no power cord needed! Provides full-time or auxiliary power in case of power failure.

Product Features:

- Long-lasting rechargeable batteries
- No power source needed
- Easily moved to different cranes
- Charging system included
- Optional remote control available

Ordering Instructions

NOTE: Battery Power can be applied to other motorized products as well, ask our customer service if your new motorized lifter can be battery powered.
