

# Model 60H

## Hydraulic Sheet Lifter

This hydraulic-drive sheet lifter delivers the powerful, fast and efficient leg adjustments while smoothly applying additional force to the sides of the loads. Each unit is engineered to your exact specifications.

### Product Features:

- Versatile handling of bundles, sheets, plates and other materials stacked horizontally
- Low-headroom design for optimum lifting capabilities
- One-person operation minimizes handling cost
- Hydraulic drive for smooth and fast leg adjustment allows more lateral forces applied to load sides
- Easy adjustment for different sheet widths
- Less maintenance than mechanical drives
- Broad adjustment range handles various load widths
- Complies with ASME standards

### Product Options:

- End chains with plate hooks (recommended for all widths 72" and greater)
- Extended grab shoe lengths or adjustable finger design
- Longer legs increase load clearance
- Controls shipped mounted or loose
- Other voltages available

Heavy-duty construction accommodates additional force applied to lifter frame by the hydraulic drive
