

# Model HB

## Drum Handling Sling

This sling allows for easy handling of various sizes of steel drums and barrels, and has a 1,000 lb. capacity. Lightweight, high strength, and oil resistant.

**Product Features:**

- Lightweight — weighs only 4 lbs
- Versatile — lifts drums either vertically or horizontally
- Self-tightening grip - sliding drum hooks tighten grip on load as drum is lifted
- Tough — resistant to alkalis, ultra violet rays, rot and mildew

**PRODUCT OPERATION**

Model Number	Rated Capacity (lbs.)	Drum Hook Width (in.)
1HB2-N x 3' or 5'	1000	2-7/8

NOTE: Use on metal drums only.

# Model DSV

## Ratchet-Type Drum Handling Sling

Low-tech, affordable solution for drum lifting in your facility. Choose from 300- or 850-lb. capacity.

**Product Features:**

- Easily lift standing drums for transport
- Tilt suspended drums to pour from open top or spigot
- For use with ribbed steel drums, the ratcheting belly band tightens securely below the first rib
- Standard wear pad for added protection
- Ratchet tightens securely
- Free end of ratchet strap sewn to stay properly threaded
- Vertical legs sewn to belly band to maintain proper position
