

Model 222

Vacuum Lifting Beam

These **Vacuum Lifting Beams** are designed to handle large sheets or plates of metal in the primary metal industry, as well as various other industries. Designed to your material weight and size requirements, units are operated with a pendant, crane-mounted controls, or radio controls. Lifting beams are custom designed per application.

Product Features:

- Trolley-mounted crossarms for ease of adjustment
- Vacuum pads and crossarms adjustable to handle a wide range of material sizes
- Handles ferrous and non-ferrous material
- Assures single sheet/plate handling
- Minimizes product damage
- Handles material up to 600 degrees Fahrenheit
- Safety indicator lights
- Vacuum reserve system to hold load during temporary power failure
- Design assures quick attachment and release
- AC power

Product Options:

- Powered rotation for horizontal location
- Durable LED lights and gauges
- Built-in support stands
- Low-vacuum indicator warning system
- DC power
